

# CUT AND CREATE

Colour-in all the different types of energy

HYDRO

WIND

SOLAR

GAS

THIS KITE WAS CREATED AND COLOURED-IN BY:

### Kumaran

Kumaran's always dreamed of becoming an engineer. He worked hard at uni and won a General Sir John Monash scholarship to study his PhD at University of Cambridge in England (one of the world's best – and oldest unis!). Kumaran wants to solve some of Australia's trickiest energy problems.

He's a real high achiever!
